**HORA**  
FLOW CONTROL

For the Best in  
Control Valves & Sensors

- ◆ Over 100,000 variations covering multiple applications in Building Automation, Industry and Gas storage/distribution.
- ◆ 1/2"(DN15) to 20"(DN500) plug & seat valves, Selection of Kvs values, Linear or Equal% characteristics, Extremely low leakage, Pressures up to PN40 (40Bar).
- ◆ Balanced plug options for greater close off pressures, Actuators for 24Vac, 230Vac, 0...10Vdc, 4...20mA and pneumatic operation, a range of powerful fail-safe actuators, Options for IP65 housing and supplied assembled and stroked.
